RELEVANT WORK EXPERIENCE:

Senior Web Developer (January 2020 - Present)

TEEM Marketing, Denver CO

- Managed technical portions of ongoing web projects for clients using tools like Trello.
- Developed websites including large scale ecommerce and multi-lingual sites, as well as a new site for the agency which netted new clients and brought in tens of thousands of dollars in revenue.
- Created and executed new technical strategies to enhance clients' websites using technologies like Wordpress, jQuery, Vue.js, and split testing.
- Analyzed and reported on analytics to communicate web performance to key stakeholders.

IT Customer Support Intern (May 2018 – August 2018)

Compassion International, Colorado Springs CO

- Provided technical support for internal customers using project management and ticketing software on an **Agile / SAFe team using a kanban board** for issue tracking.
- Created a prototype for a web-based geographic tool to aid marketing and support departments.
- Worked to resolve customer pain points by going through the Design Thinking Process and developing solutions to address important needs.
- Processed inbound technical support calls and walkups.

Student IT and Media Assistant (September 2017 – May 2018)

University of Colorado Boulder, Boulder CO

- Tasked with re-designing existing ecology department website to improve engagement.
- Responsible for filming, editing, and producing weekly seminar videos in Adobe Premiere Pro.
- Created a plan for future social media and department marketing strategies.
- Assisted with troubleshooting general IT incidents, in addition to miscellaneous server, networking, printing, and hardware issues.

EDUCATION:
